COM-PAK AIR COMPRESSORS

**IF YOU NEED AIR FOR ANYTHING
FROM A BACKYARD SHED TO A LARGE FACTORY...
WE HAVE THE COMPRESSOR FOR YOU!**

Electric, Petrol and Diesel Air Compressors 2-52 CFM

COM-PAK stationary compressors are fully DLI approved for heavy duty, trouble free operation in any industrial situation where a large quantity of compressed air is needed.

STANDARD FEATURES OF COM-PAK COMPRESSORS

- (1) Cartridge style air filter is used for maximum filtration.
- (2) Intercooling, markedly reduces moisture content in your lines.
- (3) Heavy duty, cast iron, precision engineered pump which is protected by a well ventilated metal belt guard.
- (4) Heat treated steel suction and discharge valves, ensure long life and maximum efficiency.
- (5) Fully adjustable automatic stop/start pressure switch/starter.
- (6) All units feature an Australian made air receiver manufactured to AS1210 boiler specification and approved in all states of Australia.
- (7) Slow revving, low vibration, overload protection.
- (8) All steel is treated with primer/etch combined with two coats of industrial enamel.

COMPRESSORS COME COMPLETE WITH:

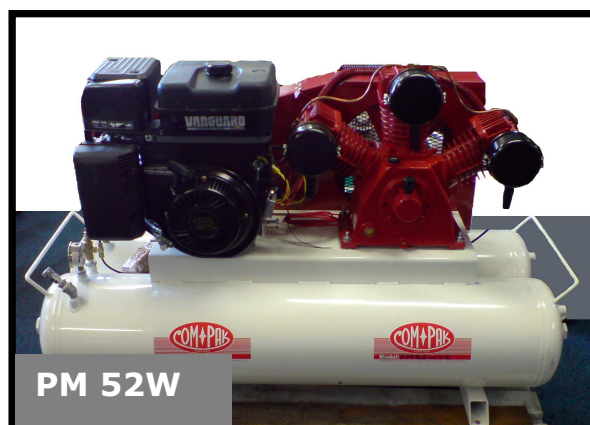

DLI approved Australian made air receiver, non return valve, safety pressure release valve, auto cut in/out switch, easy to read pressure gauge, drain cock, heavy duty wheels, quick seal snap release airline coupling, easy lift handles and replaceable inlet filters c/w noise dampeners for quiet operation.

YOUR GUARANTEE

Customers can rely on their COM-PAK compressor for years to come, as not only do they come with a 24 month warranty, but COM-PAK also carries a complete range of spare parts, fittings and accessories to suit its entire range of compressors. All COM-PAK equipment is fully repairable and/or recyclable. Plastics and other throwaway materials are kept to minimum.

CUSTOM MADE

COM-PAK specialises in building specific compressors to suit the needs of a diverse range of industries, applications and budgets. Supplying compressors from 2-52 CFM we can design something to suit your individual application whether it be for industrial or personal use. Simply contact our friendly sales staff to discuss your particular needs and let COM-PAK create a solution.
